Contractor shall indemnify, defend and hold harmless the Village of Villa Park, its officers, employees, agents, representatives, successors, assigns and attorneys from and against any and all claims, actions, suits, liability, loss, damage, judgments and expenses including, without limitation, reasonable investigation, legal expenses and attorneys' fees, arising out of or related in any way to this agreement, other than the obligations and liabilities expressly agreed to by the Village of Villa Park as contained in this document.

**Insurance.** Contractor agrees at all times to provide Public Liability and Property Damage insurance, naming the Village as an additional insured, in the following amounts:

Comprehensive General Liability in the amount of \$1,000,000 (one million dollars) combined single limit per occurrence for Bodily Injury and Property Damage. The general aggregate shall be twice the required occurrence limit.

Contractor shall furnish Village with certificates of coverage, evidencing the above-referenced coverages and limits. The Contractor will also forward to the Village copies of the policy endorsements naming the Village of Villa Park and its officers and employees as additional insureds and indicating that the Contractor's insurance is primary. Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all the requirements stated herein related in any way to the subject matter of this Agreement.

## **PREVAILING WAGES**

Any public works project, (including demolition projects) must adhere to all elements of the Prevailing Wage Act (820 ILCS 130/1-12). Not less than the most recent prevailing wage rate (as determined by the Illinois Department of Labor) must be paid to all laborers, workers, and mechanics performing work under the project.

Adherence to all requirements of the State of Illinois must be followed and Contractor must be familiar with the same in order to perform the public works project required.

A. All laborers, workers and mechanics performing work under the contract must be paid no less than the prevailing rates on wages in the county in which the project is located. The contractor must include the same requirements in its project specifications and contracts for any subcontractors, which, in turn, must write the same requirements into their project specifications and contract for lower tiered subcontractors or suppliers. If the contractor awards work to a subcontractor without a contract or contract specification, the contractor shall provide the subcontractor with a written statement indicating that not less than the prevailing rate of wages shall be paid to all laborers, workers, and mechanics performing work on this project.

B. The contractor and each subcontractor must make and keep, for a period of not less than three years, records of all laborers, mechanics and other workers employed by them on the project. The records must include each worker's name, address and telephone number when available, social security number, classification or classifications, the hourly wages paid in each pay period, the number of hours worked each day, and the starting and ending times of each work day. Upon seven business days notice the contractor and each subcontractor shall make available for inspection these records to the Owner.

The contractor and each subcontractor must submit monthly a certified payroll to the public body in charge of the project. The certified payroll must consist of a complete copy of the required records, listed above, except the starting and ending times of each work day. The certified payroll must also be accompanied by a statement signed by the contractor or subcontractor representing that: (i) such records are true and accurate; (ii) the hourly rate paid to each worker is not less than the general prevailing rate of hourly wages required by the Wage Act; and (iii) the contractor or subcontractor is aware that filing a certified payroll that he or she know to be false is a Class B misdemeanor.

C. The most recent Prevailing Wage Rate Determination for DuPage County is attached to and incorporated in the Contract Documents. Revisions of the following Prevailing Wage Rates are made periodically by the Illinois Department of Labor. These rates may be accessed by computer at <http://www.state.il.us/agency/idol/rates/rates.htm>. As required by the Prevailing Wage Act any and all such revisions supersede the Owner's March determination. Bidders and contractors performing work on this project are

responsible for determining the applicable prevailing wage rates at the time of bid submission and performance of the Work. Failure of a bidder/contractor to make such determination shall not relieve it of its obligation in accordance with the Contract Documents.

By its execution of a contract with the Owner, contractor, acknowledges and agrees that the foregoing notice of periodic revision to the prevailing wage rates satisfied any obligation of the Owner to notify the contractor of any such revisions to the prevailing wage rates during the term of the contract.

D. The Illinois Department of Labor maintains a list of contractors and subcontractors found to have disregarded their obligations to employees under the Act. The list includes contractors and subcontractors who on two separate occasions within five years have been determined to have violated the Act.

No contract may be awarded to a contractor or subcontractor appearing on the list, or to an entity in which the contractor or subcontractor has an interest, until four years have elapsed from the date of the publication of the list. Please note that this list is available on the IDOL website at <http://www.state.il.us.agency/idol/listing/debar.htm>.

E. All contractors' and subcontractors' bonds shall include a provision as will guarantee the faithful performance of such prevailing wage clause as provided by this contract/specification or by other written instrument.

#### **Applicable laws and regulations.**

Contractor agrees to comply at all times with all applicable laws, ordinances, and regulations of the Village of Villa Park, County of DuPage, State of Illinois, and United States Government. This Agreement is subject to and governed by the Rules and Regulations of the Illinois Fair Employment Practices Act. Contractor agrees and warrants to comply with all applicable local, state and federal laws concerning prevailing wage rates and all local, state and federal laws and requirements regarding equal employment opportunities. The laws of the State of Illinois shall govern this contract.

The Village and the Contractor each binds itself and its partners, successors, executors, administrators, and assigns to the other party of this contract and to the partners, successors, executors, administrators, and assigns of such other party in respect to all covenants of this contract. Neither the Village nor the Contractor shall assign, sublet, or transfer its interest in this contract without the prior written consent of the other, and then only if the assignee, sublessee, or transferee countersigns and agrees to the provisions of this contract.

## Explanations

### DUPAGE COUNTY

IRON WORKERS AND FENCE ERECTOR (WEST) - West of Route 53.

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

### EXPLANATION OF CLASSES

ASBESTOS - MECHANICAL - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

TRAFFIC SAFETY - work associated with barricades, hoses and drums used to reduce lane usage on highway work, the installation and removal of temporary lane markings, and the installation and removal of temporary road signs.
