RESIDENTIAL ROOFS

PERMIT APPLICATION

The Village of Villa Park requires a permit prior to beginning any construction.

To obtain a permit, the following is required:

- Completed permit application
- If work is being performed by a contractor, a copy of a State of Illinois Roofers License must be submitted along with the roofer's name, address, & phone number.
- A dumpster for the removal of the old roof is allowed on private property only.

REGULATIONS

- The Village allows a maximum of two (2) layers of roof covering; anything over that amount would require a complete tear-off.
- The roof venting shall be 1/150 or 1/300 provided 50% is located in the upper portion.
- The roof shall be solidly sheathed.
- Where sheathing or insulation is exposed during reroofing it shall be insulated either above or below the sheathing, with a minimum R-49 insulation.
- Ice and water shield shall be installed and extend from the lowest edges of all roof surfaces to a point at least twenty-four (24) inches (minimum) from inside the exterior wall line of the building.

Inspection required

- A ice and water shield inspection is required prior to installing shingles
