RE: Charles Avenue Improvement Project (St Charles to Oak) Village-Sponsored Sanitary Sewer Service Televising

Dear Resident:

The Village has contracted with Midland Plumbing of Villa Park to provide free sanitary sewer service televising for residents who would like additional information about the current condition of the sewer service before deciding whether to replace the sewer service as a part of the Charles Avenue Improvement Project.

Televising will be offered on Tuesday, August 17, 2021, Wednesday, August 18, 2021, and Thursday August 19, 2021. This service can be scheduled by calling Public Works at (630) 834-8505, or by stopping by the Public Works office at 11 West Home Avenue, between the hours of 7:30 A.M. and 4:00 P.M. Monday through Friday. Televising of your sanitary sewer service could provide a better idea of its current condition and allow for a more informed decision as to whether or not to replace it with the project.

On another subject—if you are not already signed up for our CodeRED notification system and would like to be added to receive weekly updates and other information about the Charles Avenue Project, please email engineering@invillapark.com and request to be added to the list.

All questions and comments regarding the sewer televising or the project in general should be directed to the Village of Villa Park Public Works Department at the phone number listed above or by email to engineering@invillapark.com. We will make every attempt to keep you informed of construction progress and activities. If you have any questions or would like additional information, please do not hesitate to reach out.
