Mr. Jeremie Lukowicz, P.E.  
Assistant Village Engineer  
Village Of Villa Park  
20 S. Ardmore Avenue  
Villa Park, IL. 60181

Re: 2016 Street Improvements-Proposal for Land Surveying Services

As requested by Mark Piasecki of Civiltech following is an outline of the streets that we anticipate needing to be surveyed along with the associated cost of each:

Princeton Avenue from Wildfire North (approx 285')  
Survey 20' beyond edge of pavement  
This includes converting the horizontal and vertical datum from previous survey from Harvard to Ardmore on Wildfire.....\$2,250.00

Home Avenue from Harvard to Ardmore (approx 1325')  
Survey 20' beyond back of curb.....\$3,150.00

Monroe Street from Harvard to Ardmore (approx 1360')  
Survey 5' beyond back of walk.....\$4,350.00

Monroe Street from Ardmore to Summit (approx 1325')  
Survey 5' beyond back of walk.....\$4,350.00

Harrison Street from Ardmore to Summit (approx 1325')  
Survey 5' beyond walk and 20' beyond curb.....\$4,350.00

Orchard Hill Court South of Harrison (approx 185')  
Survey 10 feet beyond sidewalk.....\$1,300.00

Total for all sections.....\$19,750.00

This does not include the establishing of right of way lines/property lines. I will be responsible for obtaining utility records which, of course, I will get from the village and the gas company. It is my understanding that Civiltech will also be obtaining certain utility information for their design.

With respect to timeframe I anticipate the work taking approximately 11 days in the field and approximately 11 to 13 days drawing. This may very well take us into a portion of January but as I discussed with Mark we would be submitting each section of roadway as the drawing is completed rather than wait until all of the drawing is completed. Civiltech can be working on the last section as the next one is being worked on.

Please contact me at your convenience with any questions.

Sincerely,

Joseph Gentile-President
