June 29, 2020

Dear Resident:

Construction of the Astor, Myrtle and Euclid Improvement Project has reached a point where the Village's contractor is ready to begin constructing the underground stormwater detention vault. This work is tentatively scheduled to begin on **July 6, 2020**. During this time, crews will be demolishing the roadway, excavating to make room for the detention structures, installing the structures, and then restoring the roadway to a temporary condition for access.

In order to allow this work to take place, **Crescent Drive will be closed to all traffic beginning Monday, July 6, 2020 for the duration of the construction.** This construction is expected to take approximately **three weeks**, weather and other circumstances permitting. **During this time, residents on Crescent Drive will be allowed to park during the day and overnight in the parking lots immediately to the north (off Central Boulevard) and the west (off Park Boulevard) of the Villa Park Historical Society. Please do not park on Villa Avenue or your vehicle may be ticketed and/or towed.** The Villa Park Police Department will be notified of the need for this parking situation, and should accommodate residents accordingly. **We ask that you please make arrangements to have all necessary vehicles out of your driveway by 6:00 AM on July 6, 2020.**

We fully understand that this work will be one of the most inconvenient portions of the project for residents, but would like to emphasize that this work is necessary to improve local stormwater management. After the underground stormwater detention vault is complete, roadway access will be restored until paving efforts commence.

Any questions and comments regarding this project should be directed to the Engineering Division of the Village of Villa Park Public Works Department at (630) 834-8505. We also ask that any residents with special needs contact us so that we can accommodate them as best as possible. We thank you for your continued patience, especially during this period of the project. If you have any questions or would like additional information, please do not hesitate to contact us.
