**RE: Plymouth Street Improvement Project
Temporary Road Closures/Driveway Access Notice**

Dear Resident:

Construction of the **Plymouth Street Improvement Project** has now reached the point that the contractor is ready to begin laying the initial layer of asphalt for the new road surface. This work is tentatively scheduled to begin on **Friday, October 30, 2020**. During this time, crews will be closing Plymouth Street to all traffic and laying asphalt throughout the project area.

In order to allow this work to take place, the road will temporarily be closed during the day on October 30, weather and other circumstances permitting. Paving operations may continue Monday, November 2 in the event that the work is not completed Friday. During this time, residents will be allowed to park during the day on side streets, where permitted. **We ask that you please make arrangements to have all necessary vehicles out of your driveway by 6:00 AM on Friday, October 30, 2020.**

We fully understand that this work will be one of the most inconvenient portions of the project for residents, but would like to emphasize that this will mark a substantial move towards completion of the project. After the initial layer of asphalt is complete, pavement work will continue with limited street access.

As always, all questions and comments regarding this project should be directed to the Engineering Division of the Village of Villa Park Public Works Department at (630) 834-8505. We also ask that any residents with special needs contact us so that we can accommodate them as best as possible. We thank you for your continued patience, especially during this period of the project. If you have any questions or would like additional information, please do not hesitate to contact us.
