**RE: Harvard Avenue Improvement Project (Jefferson Park to Plymouth)**

Dear Resident:

Work on the Harvard Avenue Improvement Project is nearing completion. At this time, the remaining work consists of the restoration of the parkway including sod installation, as well as miscellaneous punch list items. Paving has been completed and residents have full access to their driveways again.

Sod and installation must wait for cooler temperatures and more favorable weather before being completed. We expect this work to begin by late August 2021. In the meantime, work crews will be periodically visiting the site to address any final punch list items.

As always, all questions and comments regarding this project should be directed to the Engineering Division of the Village of Villa Park Public Works Department at (630) 834-8505. We thank you for your continued patience and understanding as we near final completion of the project. If you have any questions or would like additional information, please do not hesitate to contact Public Works.
