**RE: Michigan Avenue Improvement Project
Concrete Driveway Aprons**

Dear Resident:

Due to high demand and favorable prices, the Village is planning on replacing all remaining asphalt driveway aprons located within the project area with concrete at no cost to the resident.

In order to allow this work to take place, residents who are receiving concrete aprons will not have access to their driveways for an additional 7 to 10 days. The Village will notify with a subsequent letter in advance of the driveway access disruption.

If you have any objections to the installation of the concrete driveway, please contact us **AS SOON AS POSSIBLE** at the contact listed below.

Mike Todorovic
Senior Civil Engineer
